PROFILE

Highly motivated Electrical Engineering student at NIT Srinagar with strong communication, leadership, and coordination skills. Experienced in managing teams, organizing events, and collaborating in dynamic environments. Skilled in Python, data analytics, and machine learning, with a keen interest in applying technical and interpersonal abilities to real-world problem solving and campus initiatives.

EDUCATION

National Institute of Technology Srinagar
B.Tech in Electrical Engineering (Expected June 2027) CGPA: 7.43

EXPERIENCE

Data Science Intern – Chinara Quantum AI
Dec 2024 – July 2025

- Performed data analysis on real-world datasets using Python
- Built interactive dashboards using Streamlit
- Implemented machine learning models and evaluated performance

Summer Intern – Power Grid Corporation of India
July 2025 – Aug 2025

- Studied power system operations and grid control mechanisms
- Observed load dispatch and substation operations
- Gained hands-on exposure to transformers and circuit breakers

Project Intern – DRDO
Dec 2025 – Feb 2026

- Designed and simulated laser synchronization system using feedback control
 - Analyzed system stability and response characteristics
 - Worked on control systems and electronic circuit design
-

SKILLS

- **Programming:** *Python (Advanced)*
 - **Libraries & Tools:** *NumPy, Pandas, Scikit-learn, Streamlit*
 - **Machine Learning:** *Supervised & Unsupervised Learning, PCA, Dimensionality Reduction*
 - **Data Analytics:** *Data preprocessing, EDA, visualization*
 - **Soft Skills:** *Communication, Teamwork, Leadership, Coordination*
-

PROJECTS

Global CancerData Analysis & Visualization

- *Conducted end-to-end analysis of global dataset*
 - *Identified demographic and regional trends*
 - *Built interactive visualization web app using Streamlit*
-

CERTIFICATIONS

- *Machine Learning Specialization – DeepLearning.AI, 2025*
 - *Supervised Machine Learning: Regression and Classification – DeepLearning.AI, 2025*
 - *Advanced Learning Algorithms – DeepLearning.AI, 2025*
 - *Unsupervised Learning, Recommenders & Reinforcement Learning – DeepLearning.AI, 2025*
 - *Data Analysis using Python – Chinara Quantum AI, 2025*
-

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

TechnoCultural Event Lead – TechVaganza 2024

- *Led planning and execution of techno-cultural events*
- *Coordinated team members and ensured smooth event operations*

Social Media & Publicity Co-Lead – Rang-e-Chinara 2025

- *Managed promotions and coordinated publicity campaigns*
- *Increased student engagement through strategic outreach*

Social Media & Publicity Team Member – TEDx 2025

- *Assisted in branding, outreach, and audience engagement*
-

KEY STRENGTHS

- *Strong communication and interpersonal skills*
- *Ability to manage and coordinate teams effectively*
- *Adaptability in fast-paced environments*

- *Problem-solving and initiative-driven mindset*
-

INTERESTS

- *Machine Learning & AI Applications*
- *Event Management & Leadership Roles*
- *Power Systems and Energy Sector Innovations*
